Nursing Continuing Professional Development

FALL 2020

What's in a Number? Scores in the Trauma Registry

Presenter: Jane McCormack, RN, BSN, CSTR, TCRN

Stony Brook Hospital, Trauma Center

Thursday, July 9th, 2020

11:00 a.m. - 12:00 p.m.

Location: Virtual via Zoom

Description: 1.0 CEU Credits

- Join us for an online discussion focused upon the common scoring systems collected and utilized by the trauma registry: Adult and Pediatric GCS and GSC 40, Adult and Pediatric RTS, and AIS, ISS and TRISS
- Review the basics of each score (components and use)
- Categorize the advantages and disadvantages associated with each score

Cost: FREE registration

\$15.00 Nursing Continuing Professional Development Certificate - optional

50th Anniversary Seminar Series

Managing Critical COVID-19 Challenges: Nursing on the Front Line

Stony Brook University Hospital Collaboration

Wednesday, August 12th, 2020

12:00 p.m. - 1:00 p.m.

Location: Virtual via Zoom

Description: 1.0 CEU Credits

The School of Nursing has invited members of the Stony Brook University Hospital nursing administrative team to discuss how the challenges of COVID-19 are being addressed during this unprecedented time.

- Administrative aspects of managing the pandemic
- How preparations were made for the COVID-19 surge
- Planning, execution and training for staff
- Establishing COVID vs non-COVID units
- How PPE are managed on the units
- Determining OR operations such as elective surgery
- Management associated with disposables
- Importance of the Rapid Response Team
- Maintaining a positive team spirit during these challenging times

Presenters:

Carolyn Santora, MS, RN, NEA-BC, CSHA, CPHQ
Chief Nursing Officer, Chief Regulatory Officer
Stony Brook University Hospital

Alison Rowe, MS, RN, NEA-BC, CEN
Associate Director of Nursing, Department of Emergency and Cardiac Services
Stony Brook University Hospital

Allison Copenhaver, MSN, RN, NEA-BC
Associate Director of Nursing, Medicine Services
Stony Brook University Hospital

Moderator:

Annette Wysocki, PhD, RN, FAAN
Dean and Professor, School of Nursing
Stony Brook University

Cost: FREE registration
\$15.00 Nursing Continuing Professional Development Certificate - optional

Trauma Registry Data for Mangled Extremities

Stony Brook University Hospital Trauma Center Collaboration

Tuesday, September 8th, 2020

1:00 p.m. - 2:30 p.m.

Location: Virtual via Zoom

Description: 1.5 CEU Credits

Presenters:

- Jane McCormack, RN, BSN, CSTR, TCRN
Stony Brook Hospital, Trauma Center
- Amanda Truelove, RHIA, CSTR - Data Quality Analyst/TQIP Coordinator
St. Louis Children's Hospital, St. Louis, Missouri

Join us for a 90 minute live case-based discussion focused on collecting complete and accurate trauma registry data for patients with mangled extremities. Interactive discussion will include pre-existing condition coding, Abbreviated Injury Scoring, ICD-10 PC coding and potential hospital events for this patient type. Also included will be considerations for how these cases impact national benchmarking reports 1.5 hours of CEU credits will be awarded at completion. Discussions will be led by Jane McCormack RN, CSTR and Amanda Truelove RHIA, CSTR. Content is appropriate for both new and experienced trauma registrars, PI coordinators and program managers.

Cost: \$25.00 Registration Fee - Includes NCPD Certificate

50th Anniversary Seminar Series

Rapid Response Team in an Academic Medical Center, Practice and Management in an NP Lead Model

Presenter: Barbara M. Mills DNP, ACNPC, ANPC, PNP, CCRN, PCCN
Stony Brook University Hospital

Saturday, September 19th, 2020

4:00 p.m. - 5:00 p.m.

Location: Virtual via Zoom

Description: 1.0 CEU Credits

The School of Nursing has invited Dr. Barbara Mills, a nationally recognized expert at Stony Brook University Hospital, to speak on the activation and deployment of the Rapid Response Team. These Rapid Response Teams respond when patients begin to physiologically decompensate and intervene to optimize patient outcomes.

- Identify the role of Rapid Response Team
- Use case studies to identify patients at risk for acute decompensation

- How to manage clinical situations including COVID-19 patients
- Understand the importance of data collection in rapid response

Cost: FREE registration

\$15.00 Nursing Continuing Professional Development Certificate - optional

50th Anniversary Seminar Series

The Future of Midwifery Education and Clinical Practice: Developing Future Leaders

Stony Brook University Hospital Collaboration

Tuesday, October 6th, 2020

4:00 p.m. - 5:00 p.m.

Location: Virtual via Zoom

Description: 1.0 CEU Credits

The School of Nursing has invited Dr. Heather Hines, Midwifery Program Director, who is nationally recognized for her innovation in Midwifery education to host a panel discussion featuring a group of alumnae Midwives. This panel will share their experiences at Stony Brook and how it has led them to become successful leaders in the profession. They will also provide insight into the future of education and clinical practice.

- The history of Stony Brook Midwifery Program
- Innovation with online curriculum
- Affordable access to equitable education
- The future of preceptorship and mentorship

Panel Includes:

- Heather Findletar Hines DNP, CNM, FACNM, Clinical Assistant Professor at Stony Brook University School of Nursing & Midwife at Stony Brook University Hospital
- Susan Altman, DNP, CNM, FACNM - NYU Rory Meyers College of Nursing
- Christina Kocis, CNM, DNP, FACNM - Stony Brook Medicine
- Kelly C. Walker DNP, CNM, FACNM - Georgetown University School of Nursing and Health Studies
- Tamika S. Julien DNP, CNM, WHNP-BC, CLC - Yale University Midwifery Faculty School of Nursing

Cost: FREE registration
\$15.00 Nursing Continuing Professional Development Certificate - optional

50th Anniversary Seminar Series - Public Engagement Event Vaccine Hesitancy and Resistance During a Global Pandemic: Nurses Lead a Positive Change

Presenter: Dr. Mary Koslap-Petraco DNP, PPCNP-BC, CPNP, FAANP

Wednesday, October 21st, 2020

6:00 p.m. - 7:00 p.m.

Location: Virtual via Zoom

Description: 1.0 CEU Credits

Vaccine hesitancy and resistance have been present since the first vaccine for smallpox was developed in 1796. The advent of the internet initiated a proliferation of anti vaccine information that became available to anyone who had access to a computer. Rather than relying on the expertise of health care providers, the public began to believe that they could determine the safety of vaccines themselves. Many in the public lost trust in the system and in all health care providers except for nurses. The outbreak of the COVID pandemic saw a rising interest in developing a vaccine at 'warp speed.' The emphasis on a rapidly developed vaccine has caused the public to increase its skepticism. Nurses own vaccines and will be key players in ensuring that a safe and effective COVID vaccine is accepted by the public.

- Analyze the sources of vaccine hesitancy and resistance
- Interpret the evidence for vaccine safety
- Appraise a paradigm to counter vaccine resistance in individuals

Cost: FREE registration

\$15.00 Nursing Continuing Professional Development Certificate - optional

50th Anniversary Seminar Series

Post Traumatic Stress Disorder in Healthcare Personnel: Lessons from Vietnam

Presenter: Joan Furey, RN, MA - US Army Nurse Veteran

Veteran's Day

Wednesday, November 11th, 2020

11:00 a.m. - 12:00 p.m.

Location: Virtual via Zoom

Description: 1.0 CEU Credits

In honor of Veterans' Day, Ms. Furey, who served as an Army Nurse in Vietnam in 1969, will give a brief history of nurses contributions during America's Wars; discuss the pioneering work of Department of Veterans Affairs clinicians and researchers, of which she was a part, in understanding the impact of war-related stressors on the psycho-social well-being of Vietnam

veteran nurses, and how these findings can help inform our to healthcare workers who serve in the battle against COVID-19.

- Define Post-Traumatic Stress Disorder
- Identify the 4 Symptom Clusters Associated with PTSD
- Identify 4 Stressors experienced by Vietnam Veteran Nurses
- Identify 4 factors that indicate an individual may require treatment for Post-Traumatic Stress Disorder
- Demonstrate an understanding of common stressors in military and civilian healthcare settings today.

Cost: FREE registration

50th Anniversary Seminar Series

Heart Failure Presentation– The Road Less (Or More?) Traveled

Presenter: Corrine Y Jurgens, Ph.D., RN, ANP. FAHA, FHFSA, FAAN

Associate Professor, Boston College

Connell School of Nursing

Wednesday, December 2nd, 2020

4:00 p.m. - 5:00 p.m.

Location: Virtual via Zoom

Description: 1.0 CEU Credits

This session will address the evolution of a program of nursing research on symptom perception and heart failure using practical advice and humor. Observations of heart failure patients' response to symptoms made during time working in a coronary care unit providing the pragmatic origin of the research will be described. Pearls, pitfalls, opportunities, tenacity and the importance of building a research community will be discussed.

- Participants will be able to describe the incremental steps for building a program of research.
- Participants will discuss creative ways to conduct research with limited resources.
- Participants will be able to describe the role of mentorship in building a successful program of nursing research.

Cost: FREE registration

\$15.00 Nursing Continuing Professional Development Certificate - optional
