Stony Brook School *of* Nursing

Office of Research Newsletter

March 5, 2024

Greetings to all,

Truly hard to believe that it is March!! I am just not sure where the time goes – but it goes – so I am trying to use it well. Spring ahead will certainly help, as the longer days of sunshine are motivating for me (and many others).

Thank you so much for making our first research newsletter a success – we had a 72% open rate! In this current version, there are a number of updates to funding opportunities, seminars and conferences, and available resources. If you have a moment, please check out this link https://edgeforscholars.org/reframing-rejection-changing-no-to-not-yet/ from Edge for Scholars. The author provides several helpful tips to reframe rejection and promote resilience, a necessary skill for the academic journey.

Finally, please save the date for our *Annual Nursing Research Day*, highlighted in the Office of Research Events below.

Sincerely,

Ann-Margaret Navarra

Office Of Research Events

Title: Research Data Management Resources at SBU
Date: Tuesday, March 19, 2024
Presenters: David Cyrille, DoIT Asst. VP/Chief Research Information Officer; Jessica Koos, Interim Head of Health Sciences Library; Kai Sherman, Proposal Development Specialist; Abdool Samad, Senior IRB Administrator; Sabrina Cerezo, Asst. Director for Grants

We will provide an overview of federal sponsor requirements as it relates to Data Management and Sharing Plans and will discuss the services and resources available to the University community for data management/sharing. This includes resources to assist with creating data management sharing plans and data storage.

Click the link below to register:
https://cvent.me/xPOrln

Event will be held via Zoom Webinar

2024 Nursing Research Day
May 10, 2024, 8am-2pm

Nursing Research and Scholarship:
A Life Course Perspective to Improve Health and Health Outcomes
Location : Stony Brook University, MART AUDITORIUM

Join us for the **2024 Nursing Research Day** on **May 10th, 8 am - 2 pm** at the MART Auditorium, with a virtual option available. This year's theme, "Nursing Research and Scholarship: A Life Course Perspective to Improve Health and Health Outcomes," promises enlightening discussions and insights into the dynamic field of nursing. We're thrilled to announce our esteemed **Keynote Speaker, Dr. Pamela B. de Cordova, PhD, RN-BC**, from Rutgers, the State University of New Jersey, School of Nursing, Division of Nursing Science. Dr. de Cordova's keynote, entitled "Promoting well-being among nurses: an essential component of ensuring the well-being of patients", promises to offer invaluable insights into the interconnectedness of nurse and patient well-being. **Stay tuned for more details coming soon!**

MORE DETAILS TO COME

Funding Opportunities

External
William T. Grant Scholars Program

We are writing to share an annual limited submission funding opportunity recently announced by the William T. Grant Foundation, which supports research aimed at improving the lives of young people in the United States. The William T. Grant Scholars Program supports career development for promising early-career researchers, and funds five-year research and mentoring plans that significantly expand researchers' expertise in new disciplines, methods, and content areas. The canvass has been posted on the OPD website.

How to Submit: If you are interested, you must submit the internal competitions form by Friday, March 8, 2024 and check off "Expressing interest in canvass" on the last question. The competition code for this program is LC202419.

Description: The Foundation supports research in two distinct focus areas: 1) Reducing inequality in youth outcomes, and 2) Improving the use of research evidence in policy and practice.
PI Eligibility: Applicants must have received their terminal degree within seven years of submitting their application. Applicants must be employed in career-ladder positions. For many applicants, this means holding a tenure-track position in a university.

Institutional Limit: 1 from each School/College
Award: $350,000 over five years
Sponsor Deadline: Mentor and Reference Letter due June 12, 2024; Application due July 3, 2024

New NIH Funding Opportunity Supporting Transformative Research to Address Health Disparities and Advance Health Equity

[Internal](#)
2023-24 SUNY Research Seed Grant Program

SUNY has announced the RFP for the NIH Resubmission and NSF Revised Submission Support Awards under the 2023-24 SUNY Research Seed Grant Program.

How to Submit: To apply to this program, PIs must follow the internal submission process detailed below. Please note that myResearch is not required for this submission. PIs must complete the full application in the [Foundant online grant management system](#) five (5) days in advance of the targeted SUNY deadline, to allow time for review and to obtain signatures from the VPR and Provost. Applications must be completed in the portal by Monday, March 25, 2024, but we encourage early submission to ensure enough time for routing and to obtain signatures. If an application is not received before the five (5) day deadline, the PI will be in jeopardy of not being able to submit. PIs must provide their [OSP Pre-Award Specialist](#) with the 'Can Submit' permission through the 'Collaborate' function in the submission portal.

SUNY Deadlines: March 31, 2024; June 30, 2024

Any questions should be directed to PI's [OSP Pre-Award Specialist](#) in the Office of Sponsored Programs.

Presidential Mini-Grants for Departmental Diversity Initiative

Description: This long-standing program supports selected proposals that promote awareness, skills and knowledge about issues related to race, gender, gender identity, sexual orientation, ethnicity, socio-economic status, abilities, age, class and/or religion. Drawing on the total pool of $30,000, the amount granted will be determined by the number of grants selected and approved for funding. Grants generally range from $1,000 - $4,000. Preference will be given to proposals that are tied to the goals of the Stony Brook Plan for Equity, Inclusion, and Diversity.

How to Apply: The Presidential Mini-Grants for Departmental Diversity Initiative was designed to foster projects that promote, enhance, and celebrate diversity, equity, and inclusion (DEI) at Stony Brook University. To encourage continued innovative campus-wide DEI programming, I invite you to take part in this year's mini-grant application process.

SUNY Deadline: The application deadline is Wednesday, April 3, 2024.

Research Opportunities for Nurses

University of Buffalo School of Nursing:
LGBTQ+ Inclusion in Nursing Education – Dissertation Research Study at Buffalo School of Nursing, [LGBTQ+ Inclusion in Nursing Education](#)

Participate in the Nurses4All Research Survey here:
Who We Are: The Center for Health Outcomes and Policy Research at the University of Pennsylvania School of Nursing has produced impactful evidence demonstrating the importance of adequate staffing and a good work environment for nurses' well-being, quality of care, patient safety, good patient outcomes, and health equity in all settings where nurses work. The results of this research are used to inform and implement policy and organizational practices that

support nurses in their work and value the contributions of nurses for patients, families, and communities.

- All nurses are eligible to participate whether working, retired, not currently working, or in some other situation.
- Participation is voluntary—by completing the survey, you give your consent to participate.
- Data are protected under a federal NIH Certificate of Confidentiality.
- Your responses are confidential and deidentified—your name will not be linked with your responses.
- Data will be used in aggregate with no identifying information to prepare scientific reports, peer-reviewed articles, and policy briefs.
- Nurses4All uses advanced encryption technology which establishes a secure and encrypted connection.
- The Nurses4All survey can be taken on smartphones, tablets, or desktop and laptop computers.
- For answers to Frequently Asked Questions, go to https://www.nursing.upenn.edu/chopr/nurses4all/faq/
- **We know nurses are asked to participate in many surveys—we are dedicated to translating the vital information you share into action. Examples on how past work has been leveraged for policy and practice change on our website** https://www.nursing.upenn.edu/chopr/nurses4all/

This study received Institutional Review Board approval from the University of Pennsylvania (IRB Protocol #850227)
