

Stony Brook School of Nursing

Office of Research Newsletter

May 2, 2024

Greeting to all,

We are almost there – the semester is coming to a close, graduation is in less than 2 weeks away, and warmer weather (hopefully not too warm) is near. In addition to celebrating the tremendous accomplishments of our faculty, students and staff at Stony Brook Nursing, let's remember to celebrate with each other during Nurses Week (May 6th - May 12th). The theme for this year is "*Nurses Make a Difference*," and so we do!!!

On Friday, May 10th of Nurses Week, we will be showcasing our contributions to research and scholarship with our annual Research Day. Please join us (in-person or virtually) for a day to celebrate each other and our profession (registration information is below). The day is sure to be a great one for continuing education, networking, and reflection right here at home on the Stony Brook campus. We look forward to seeing you there!

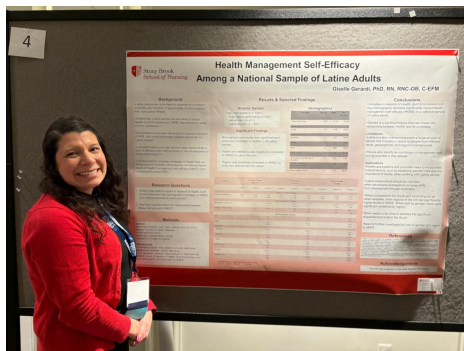

Best wishes,
Ann-Margaret Navarra

P.S. Please check out the pictures in this issue illustrating our nurses presenting their scholarship at the 36th Annual Scientific Sessions for Eastern Nursing Research Society (ENRS).

Stony Brook School of Nursing at 36th Annual Scientific Sessions for ENRS

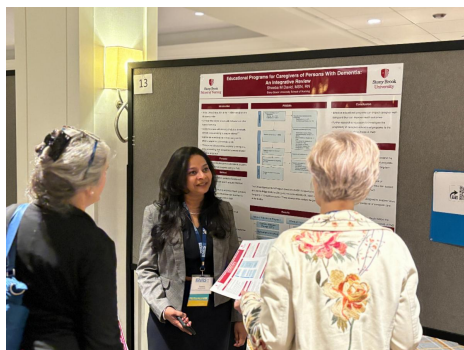

(L to R, PhD Student Michael Davison, Faculty Member and PhD Student Tracy Trimboli, Dr. Giselle Gerardi, Dr. Mary Ellen LaSala, Dean Patricia Bruckenthal, Dr. Pamela Ginex, Dr. Carol Della Ratta, Dr. Ann-Margaret Navarra, Dr. Clare Whitney, PhD Students Sheeba David and Margaret Wichrowski.)

Dr. Giselle Gerardi presenting her poster on, *Health Management Self-Efficacy Among A National Sample of Latine Adults*

Dr. Pamela Ginex, Dr. Patricia Bruckenthal presenting their poster on, *Population Health and Informatics: An Innovative Collaboration Between PhD and Undergraduate Students.*

Sheeba David, PhD Student, presenting her poster on, *Educational Programs for Caregivers of Persons with Dementia: An Integrative Review*

Margaret Wichrowski, PhD Student, presenting her poster on,

Of Interest

Congratulations to Dr. Ann-Margaret Navarra and Dr. Giselle Gerardi whose abstracts were accepted for podium presentations at the 2024 Council for the Advancement of Nursing Science – Washington DC (June 13th – June 15th 2024).

- Comparison of a peer-led, synchronous videoconferencing intervention with an asynchronous web-based, educational platform in a randomized control trial on 12 – week adherence and viral load outcomes among HIV+ adolescents and young adults (AM. Navarra).
- Individual and interpersonal influences on 12-week adherence and viral load outcomes among HIV+ adolescents and young adults participating in a technology-enabled, cognitive behavioral intervention (AM. Navarra).
- Built Environment and Health Management Self – Efficacy Among a National Sample of Latine Adults (G. Gerardi).

Office of Research Events

2024 Nursing Research Day – Hybrid
May 10th, 2024, 8:00 am – 2:00 pm

Nursing Research and Scholarship:
A Life Course Perspective to Improve Health and Health Outcomes
MART Auditorium or Join us via Zoom

Join us for the **2024 Nursing Research Day** on May 10th, 2024 from 8:00 am – 2:00 pm at the MART Auditorium, with a virtual option available.

This year's theme, "Nursing Research and Scholarship: A Life Course Perspective to Improve Health and Health Outcomes," promises enlightening discussions and insights into the dynamic field of nursing. We're thrilled to announce our esteemed Keynote Speaker, Dr. Pamela B. de Cordova, PhD, RN – BC, from Rutgers, the State University of New Jersey, School of Nursing, Division of Nursing Science. Dr. de Cordova's keynote, entitled "Promoting Well – Being Among Nurses: An Essential Component of Ensuring Patient Well – Being", promises to offer invaluable insights into the interconnectedness of nurse and patient well – being. The attached flyer provides details of the fabulous panel of speakers – all with a focus on the promotion of well – being and health for our nurses and patients.

Registration Deadlines

In Person Attendance - Register by Monday, May 6th 2024 COB
Virtual Attendance - Register by Wednesday, May 8th, 2024 COB
FREE for undergraduate students attending in-person or via Zoom

Internal

Health Sciences Center Stony Brook UUP Individual Development Awards Application (IDA) July 2nd, 2023 – July 1st, 2024

Description: IDA application portal open. All applications and supporting materials are to be submitted online through the application portal at <http://sbhscuup.org>. All projects must be completed in this time frame. The grants awarded are up to a maximum of \$2,000 up to 2 projects. A copy of the guidelines can be found on the application portal. The guidelines explain the nature of the acceptable activities as well as the appropriate documentation to be submitted. The application is a fillable PDF. Please do not print it and hand – fill it. The values will be automatically calculated within the document once entered. Once the application is complete, save it to your local computer and upload it to the portal along with your CV, project description documents and receipts. Please direct questions to Daniel Braun, committee chair at daniel.braun@stonybrook.edu.

Deadline: Applications will be accepted through May 14th.

Lectures & Conferences

National Institute
of Nursing Research

[NINR Director's Lecture - Firearm Injury Prevention](#)

When: May 7, 2024, 1:00 - 2:00 p.m. (ET)

Join NINR at our upcoming Director's Lecture as we feature firearm injury prevention expert Dr. Stephanie Hawkins, vice president of the Transformative Research Unit for Equity (TRUE), a research organization at RTI International. She will be discussing her risk reduction research, the application of NINR's social determinants of health research lens to firearm injury prevention, and the role of nursing science in advancing solutions in this area.
Register

*CEUs: Please note that CEUs will be available for those who attend the lecture.

Participate in the Nurses4All Research Survey here :

Who We Are: The Center for Health Outcomes and Policy Research at the University of Pennsylvania School of Nursing has produced impactful evidence demonstrating the importance of adequate staffing and a good work environment for nurses' well-being, quality of care, patient safety, good patient outcomes, and health equity in all settings where nurses work. The results of this research are used to inform and implement policy and organizational practices that support nurses in their work and value the contributions of nurses for patients, families, and communities.

- All nurses are eligible to participate whether working, retired, not currently working, or in some other situation.
- Participation is voluntary—by completing the survey, you give your consent to participate.
- Data are protected under a federal NIH Certificate of Confidentiality.
- Your responses are confidential and deidentified—your name will not be linked with your responses.
- Data will be used in aggregate with no identifying information to prepare scientific reports, peer-reviewed articles, and policy briefs.
- Nurses4All uses advanced encryption technology which establishes a secure and encrypted connection.
- The Nurses4All survey can be taken on smartphones, tablets, or desktop and laptop computers.
- For answers to Frequently Asked Questions, go to <https://www.nursing.upenn.edu/chopr/nurses4all/faq/>
- We know nurses are asked to participate in many surveys—we are dedicated to translating the vital information you share into action. Examples on how past work has been leveraged for policy and practice change on our [website](#).

This study received Institutional Review Board approval from the University of Pennsylvania (IRB Protocol #850227)
