Health Form-Nursing

When completed, mail the original and a copy directly to:

School of Nursing Office of Student Affairs Stony Brook University Stony Brook, NY 11794-8240

Tel: (631) 444-3200

To Students Admitted to the School of Nursing:

The Health Sciences schools' student health policy **requires** that all students admitted to programs that involve education in clinical settings submit documentation of their health status and immunization history prior to the start of classes. NYS Public Health Law §2165 requires all students in post-secondary education to be immunized against measles, mumps and rubella.

In addition, NYS Public Health Law §2167 requires institutions, including colleges and universities, to distribute information to students about meningococcal disease and vaccination. Students must comply with this law by reading the required information about meningitis and completing the meningococcal vaccination response form available on your SOLAR account.

The Student Health Form has three (3) parts:

Part I – Health History; Part II – Physical Examination; Part III – Immunization History. YOU MUST COMPLETE PART I BEFORE GOING TO A HEALTH PRACTITIONER FOR EXAMINATION. SUBMIT THE COMPLETED FORM TO THE ABOVE ADDRESS AT LEAST TWO WEEKS BEFORE ATTENDING ORIENTATION.

The Registrar will block the registration of any student who is not in compliance with the policy/law. The Health Sciences schools will not authorize students to begin their clinical education unless their physical examination, required laboratory tests, and record of immunizations comply with the requirements listed below. Current records of health status need to be maintained by submitting the "Student Annual Physical Examination" form available by contacting the Office of Student Affairs at (631) 444-3200.

Requirements for registration and for clinical training include documentation of the following:

- **A.** Physical examination completed by a licensed practitioner within two weeks of starting enrollment.
- **B.** Required laboratory test results:
 - 1. **PPD Mantoux** prior to first enrollment; yearly thereafter if negative. If PPD is positive, a copy of chest **x-ray results** with place and date of examination is required. Students with positive PPD and/or positive chest x-ray will be referred to the Student Health Service for follow-up as appropriate.
 - 2. Required Titers (showing immunity): Measles, Mumps, Rubella, Varicella and Hepatitis (unless Hepatitis B vaccine declination statement is signed on page 4 of this form).
 - 2.a. All required titers must have copies of full laboratory reports attached to the Student Health Form.

C. Required immunizations:

- 1. Tetanus or Tetanus/diphtheria (Td) toxoid within the past ten years
- 2. Poliomyelitis vaccine
- **D.** Strongly recommended immunizations:
 - 1. Hepatitis B vaccine
 - 2. Influenza vaccine
 - 3. Meningococcal vaccine
 - 4. Hepatitis A vaccine
